

2024 Bi-Monthly Product Training

		Topic	Summary
FEB			
	2/1/2024	CPS Product Overview	Chint Power Systems is a leading provider of solar inverter solutions. In this webinar, we will explore our range of 3-phase string inverters and delve into other comprehensive product offerings. Chint's 3-phase string inverters are designed for residential, commercial, and utility-scale solar applications. We offer high efficiency, reliability, and durability, making them a valuable choice for any solar power system.
MAR			
	3/21/2024	CPS Flex Gateway	FlexOM: Streamlining Solar Monitoring and Control for Businesses. Join us as we do a deep dive into the FlexOM Gateway. The FlexOM allows for comprehensive data communications and controls for commercial and utility-scale solar installations. It empowers businesses with a powerful and versatile solution for managing their solar investments. With centralized data logging, remote monitoring and control, flexible communication options, and scalable architecture, FlexOM simplifies solar operations and maximizes its potential for cost savings and energy generation.
MAY			
	5/16/2024	CPS C&I ESS Products	Chint Power Systems has unveiled new Energy Storage solutions for Commercial and Industrial applications. In this webinar, you'll learn about the key features and benefits we can offer, including scalability, efficiency, and reliability.
JULY			
	7/18/2024	CPS Product Overview	Chint Power Systems is a leading provider of solar inverter solutions. In this webinar, we will explore our range of 3-phase string inverters and delve into other comprehensive product offerings. Chint's 3-phase string inverters are designed for residential, commercial, and utility-scale solar applications. We offer high efficiency, reliability, and durability, making them a valuable choice for any solar power system.
SEPT			
	9/19/2024	CPS Utility Scale Solutions	Join us for an insightful webinar focused around accelerating 800V string installations with our new Utility-scale offerings! We will delve into the benefits of the 350kW inverter, and how recent innovations such as the 800V Breaker Box will speed up install times and save on labor and material costs. Join us to learn more about how CPS America is becoming a Total Solutions Provider for your site!
NOV			
	11/21/2024	CPS String Sizing Tool	String sizing is an integral part of any system design. Chint Power Systems helps make the process easier by utilizing its own String Sizing Tool. In this webinar, we will go in depth of how to use our String Sizing Tool and the benefits of it.
